WHO WE ARE

One accountable team — engineered, not assembled.

Most project overruns aren't technical failures. They happen in the gaps between designer, supplier and installer — gaps you pay for in delays, variation claims, and disputes over who is responsible.

Brilliant Approach removes that gap entirely. With more than fifteen years engineering systems for India's most demanding clients, we now build what we design. One contract. One responsibility. One team answerable to you until the system performs.

MEPF SCOPE

M Mechanical & HV Comfort, ventilation, process piping	E Electrical Power, distribution, ELV systems	P Plumbing Water, drainage, sanitary	F Fire Protection Safety, detection, alarm
---	--	---	---

WHAT AN EPC CONTRACT GIVES YOU

- **One turnkey contract**
Engineering, procurement, construction and AMC under a single responsibility.
- **No surprises at handover**
Designed by the engineers who'll be on site when it's tested and commissioned.
- **Schedule & cost certainty**
Single-point procurement and SOP-driven crews built for stringent EPC deadlines.
- **Lifecycle value**
Maintained under AMC after handover — performance that lasts, not just a handover note.

THE EPC LIFECYCLE

Six stages.

One accountable team.

From contract award to a running facility — a disciplined execution route so you always know exactly where your project stands.

- 01 Engineering** Detailed design, drawings, BOQ and specifications.
- 02 Procurement** Vendor-vetted equipment and materials, expedited to site.
- 03 Installation** On-site MEPF erection by a skilled, supervised workforce.
- 04 Testing** Pressure, balancing and functional testing to design.
- 05 Commissioning** Final balancing, handover, validation and documentation.
- 06 AMC & service** Preventive maintenance, O&M support, long-term reliability.

INDUSTRIES WE WORK IN

Pharma · Healthcare · Chemical & Petrochemical · Power · Automobile · Food & FMCG
Textile · Packaging · Engineering & Steel · Aviation · Bio Technology · Hotels & Real Estate
Universities · Defense · Railways & Transport · Heavy Industry

A wide-angle photograph of a large industrial facility, likely a water treatment plant or power station. The space is filled with a complex network of pipes, valves, and machinery. The ceiling is high with exposed ductwork and lighting. Large windows on the right side provide natural light. The overall atmosphere is industrial and modern.

Tell us what you're building.

Share your scope and we'll respond personally — with a considered approach, a clear path to delivery, and an estimate. One conversation with the team that will actually deliver it.
